

From the Desk of Miss Sutherland

Week of October 9th–13th

Grade 5 Math News

After completing many review sheets during the week, fifth graders took their Chapter 1 test today. I'm expecting great results! Next week we will begin Chapter 2 which will include skills leading up to multiplying 2 or 3 digit numbers by one and two digit numbers. These skills include finding factors of numbers, greatest common factor, prime factorization and determining if a number is prime or composite. All these skills are building blocks for future tasks!

It will greatly benefit your child if they review their math notebook each night for 5 or 10 minutes!
